PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions

Altered vision

Eye or muscle twitching

Involuntary movements

Loss of awareness

Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

⚠ WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

GO FISH

HOW TO PLAY

A standard 52-card deck is used. This dealer-deals 6 cards to each player (7 each for 2 players). The remaining cards are placed face down to form the stock.

The player to dealer's left starts. A turn consists of asking a player for a specific card rank. For example, if it is your turn you might say 'Mary, please give me your jacks'. The player who just must already hold at least one card of the requested rank, do you must hold at least one jack to say this. If Mary has any jacks, she must give them all to you. You then get another turn and may again ask any player for any hand already in your possession.

If Mary didn't have any jacks in her hand, she would then tell you to "Dig Right." You must then draw the top card of the un-dealt stock. If by chance you want to draw a jack, you should show it to the other players and give another turn. If the drawn card wasn't a jack, you keep it and the turn passes to Mary.

As soon as a player collects a hand of 8 cards they raise both hands in the air and yell "I'm out!" The other players and discarded face down. The game continues until either someone has no cards left in their hand or the stock runs out. The winner is the player who collects the most hands.

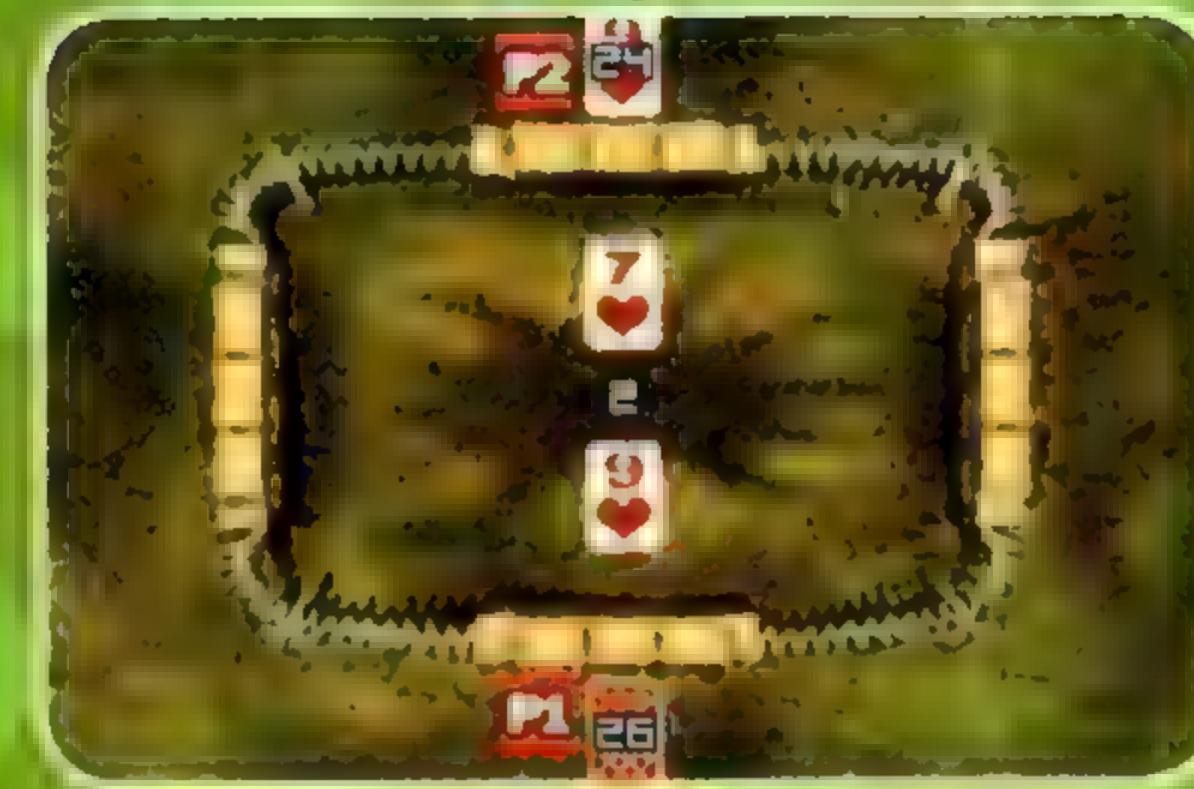

WARS!

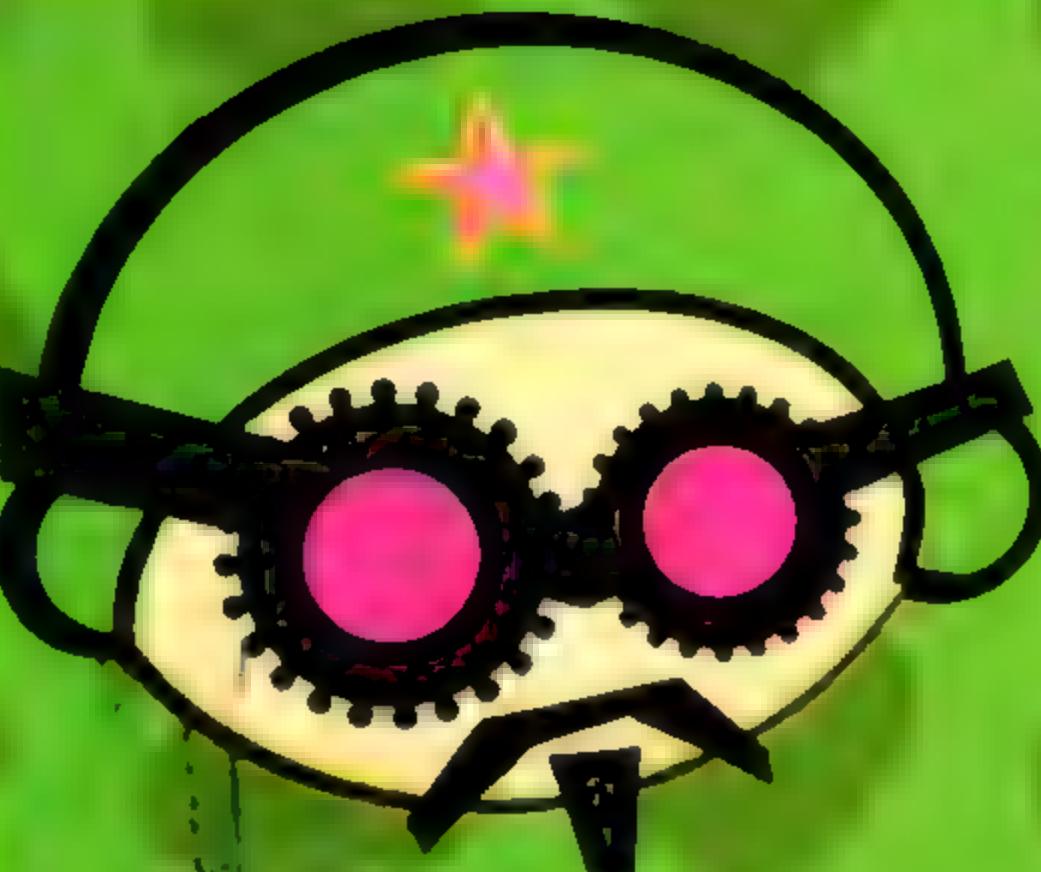

HOW TO PLAY

In the basic game there are two players and a standard deck of cards is used. Card ranks are listed from high to low, Ace through 9, and suits are ignored. All the cards are dealt out face down, so that both players have 26 a piece. Players do not look at their cards.

After all the cards are dealt, the game begins. Each player turns their top card face up and places it on the table. Whoever turns the higher-ranking card takes both cards and adds them face down to the bottom of their packet. This process continues until one of the two players is incorporation of all 52 cards, and they are the winner.

If both players turn cards of equal value there is **War**. The tied cards stay on the table and both players play the next card of their pile face down and then another card face-up. Whoever has the higher of the new face-up cards wins the war and adds all the cards face-down to the bottom of their packet. If the new face-up cards are equal as well, the war continues each player puts another card face-down and one face-up. The war goes on like this as long as the face-up cards continue to be equal. Once a player turns a higher ranking card, they take all the cards that were involved in that war.

If you run out of cards during a war, your last card is turned face up and is used for all battles in that war. If this happens to both players in a war and their last cards are equal, the game is a draw.

Important Note: In the Game Between Brothers, you can attack either the civilian player or the warship. When you attack a warship, it needs 2 cards to defend itself from being destroyed. If the warship's health drops to zero, you cannot use the ship after that.

WAR FOR THREE OR FOUR PLAYERS

Three or more players can also play war in much the same way. Deal out all the cards so that everyone has an equal number (17 for 3 players, 13 for 4). All players simultaneously turn over a card and the highest wins all the cards turned up. If two or more players tie for highest there is a war. This continues until one of the face-up cards is higher than all the others, and then that player wins all the cards in a war.

Additional Note: Only one player deal with the highest card goes to the next

CRAZY 8'S

HOW TO PLAY

The basic game of Crazy 8's uses a standard 52 card pack.

The dealer deals five cards to each player (seven each if there are only two players). The un-dealt stock is placed face down on the table, and the top card of the stock is turned face up and placed beside the stock to start the discard pile.

Starting with the player to dealer's left, and continuing clockwise, each player in turn must either play a legal card face up on top of the discard pile, or draw a card from the un-dealt stock. The following plays are legal:

1. If the top card of the discard pile is not an eight, you may play any card which matches the rank or suit of the previous card.

For example, if the top card was the king of hearts you could play any king or any heart.

2. An eight may be played on any card, and the player of the eight must nominate a suit, which must be played next.

3. If an eight is on top of the pile, you may play any card of the suit nominated by the person who played the eight.

The first player who gets rid of all their cards wins, and the other players score penalty points according to the cards they have left in their hands - 50 for an eight, 10 for a picture, and spot cards at face value (one point for an ace, two for a two and so on).

OLD MAID

HOW TO PLAY

From a standard 52 card pack one queen is removed, leaving 51 cards. The dealer deals out all the cards to the players (generally a player will have one more card than others - this does not matter). Each player looks at their cards and discards any pairs that they have in their hand.

The dealer begins. At your turn you must offer your cards spread face down to the player to your left. That player selects a card from your hand without seeing it, and adds it to his or her hand. If it makes a pair in their hand they discard the pair. The player who just took a card then offers their hand to the next player to their left, and so on.

If you get rid of all your cards you are safe, the turn passes to the next player and you are out of the game. Eventually all the cards will have been discarded except one queen (the old maid) and the holder of this queen loses.

SLAP JACK

HOW TO PLAY

Slap Jack is played using a 52 card deck. All the cards are dealt out one at a time to each player in rotation until all have been used. Make sure the cards are dealt face down and remain face down once all the cards are dealt.

Each player in turn, starting from the dealer's left, is required to lift one card from their pile and place it face up in the center of the table. The player turning the card must turn up the card away from them and not toward them so that all parties see the card at the same time.

If the card played to the center is a jack, the first player to slap their hand down on it takes the jack and all the cards below it. The player who wins these cards must turn them face down and shuffle them within their pile.

If more than one player slaps at a jack, the one whose hand is lowest (directly on top of the jack) is declared winner of the pile. If a player has no more cards left, he remains in the game until a jack is next turned, and he may then slap at the jack in an effort to get a new hand. Should he fail to win, the player is declared out of the game. The play continues until one player possesses all the cards. That player is thus declared the winner!

IMPORTANT NOTE: If a player slaps at any card in the center other than a jack, he is required to give both cards to the player of that card.
